

# #WorkWithoutFear

## Have your say on staff training...

By informing the design of a new national training programme for operational ambulance staff in managing challenging situations

ASSOCIATION OF  
**AMBULANCE**  
CHIEF EXECUTIVES

### Improving staff and patient safety

We invite you to take part in a survey that will be used to develop training that provides additional skills and guidance on situations where you may need to hold or restrict a patient's movement or freedom while you provide essential treatment, or to prevent you or them from coming to harm.

The survey will take 10-15 minutes and your response will be anonymous, as we want you to share the challenges you face in your day to day work so that we can make this training highly relevant and valuable for you.

## Take the Survey
